

2017 Pork Plants Fruit Vegetable List

NEW	Crop	Variety	Days to Maturity	Mature Color	Fruit Size	Description	AAS	Burpee Exclusive	Other	Hot Scale	Min temp to plant
	Asparagus	Jersey Giant	Late Spring	green/purple	7-9 in.	Very hardy, resistant to rust and many soil diseases. 7-9" green spears with purple tips.					40°F
X	Blackberry	Prime-Ark Freedom	Late Summer	black		Never before has there been a thornless, primocane blackberry! Exceptional fruit size & flavor combined with disease resistance & tolerance of heat. You'll get crops early in season, and 2nd flush in the fall on 5-6' canes.					zone 5
X	Blackberry	Prime-Jim	Late Summer	black		Enjoy months of berries. You'll get crop after crop of large, delicious berries, even in the canes first year. First-year canes begin ripening in mid July, while second-year canes bear heaviest crops in June. Both continue to fruit until frost. Everbearing primocane. Self-pollinating.					zone 4
	Blueberry	Bluecrop	mid Summer	bright blue	mid-large	Considered by many to be the best all around variety for consistent yields, disease resistance and high quality on 4-6' tall plants. Good for eating, preserves, baking and freezing. Self pollinating.					40°F
	Blueberry	Chippewa	August	sky blue		U of MN variety ripens a week earlier than Northblue, sweeter berry and more upright in growth habit 30-40" tall. Excellent for eating. Very winter hardy and Self pollinating.					40°F
	Blueberry	Patriot	June	blue	large	Quarter-size berries! Big and bountiful — the largest early-season blueberry. Fruit has outstanding flavor and is super-hardy. Plus snowy blossoms in early summer and stunning orange leaves in fall. Cold-hardy. Self-pollinating, but will yield larger crops if you plant two or more.					40°F
	Blueberry	Pink Popcorn	mid Summer	deep pink		High-bush 4-5' plants, with showy white flowers and crimson fall foliage, bears up to 20 lb of pink fruit that ripens early to mid-season. Variety that is undemanding, easy to care for, and untroubled by pests or diseases. Self-fertile plants will produce larger crops of larger berries when planted close to another early season variety.					zone 3
	Broccoli	Green Magic	57	dark green		Great early variety for first of the season harvest.					40°F
	Broccoli	Marathon	68	dark green		#1 Fall variety, highly tolerant to cold.					40°F
	Brussels Sprouts	Franklin	80	green		These small, 1" sprouts look like miniature heads of cabbage have best flavor after a couple of frosts in Fall. Great steamed then lightly tossed with bacon pieces or roasted with balsamic vinegar/olive oil.					40°F
	Cabbage	Mix	51	green	2-3 lb	Mixture of different maturities, so you can harvest over longer period of time.					40°F
	Cabbage	Red Jewel	75	deep red		One of the best round red cabbages available and will certainly add a bright splash of color to your plate. This delicious red cabbage produces large, tightly packed hearts with crisp, ruby red leaves that can be harvested from late July to October, and stores well once harvested.					40°F
	Cabbage	Stonehead	50	green	2-2.25 lb	Nearly round heads have excellent holding. Yellows resistant.					40°F
	Cauliflower	Cheddar	68	gold	2 lb.	25% more beta carotene than standard white types - excellent source of Vitamin A.					40°F
	Cauliflower	Snow Crown	50	white	2 lb.	Hybrid vigor and uniformity with 7-8" rounded heads of exceptional firmness. Best quality and may show a light purplish blush on the underside of heads when grown under stressful conditions.					40°F
	Celery	Tango	80	dark green	18-20 in.	Tender, smooth stalks are super-sweet and never stringy- much tastier and fragrant than store-bought. Best in moist, boggy location or water often and consistently.					40°F
	Citrus aurantifolia	Key Lime		green/gold	2 in.	Make Key Lime Pie! Fragrant white flowers and small juicy green limes, are ripe when skin is smooth surface & slightly golden. Self-pollinating, as long as bees around.			Patio Pot		55°F
	Citrus x meyeri	Meyer		yellow/gold	3 in.	Cross between lemon & orange, fruit is rounder, sweeter & less acidic flavor, deep yellow with slight orange tint when ripe. Only need 1 plant, but may need to hand pollinate in spring for better production.			Patio Pot		55°F
	Cucumber	Patio Snacker	39	dark green	8 in.	Short vining plant is well-branched & high-yielding, fruit has great flavor & nice crunch. Great to grow in container w/ small trellis.			Patio Pot		55°F
	Cucumber, Pickle	Bush Pickle	54	green	4-5 in.	4-5 in. fruit produced on bush-type habit for small gardens/containers.			Patio Pot		55°F
	Cucumber, Pickle	Fresh Pickles	50-55	green		Especially delicious, cute little cuke is prime for patio plucking and pickling. Restricted vine offers up exceptional yields—up to 55 gorgeous fruits per plant. Compact, leafy plants are pretty as a picture in a patio container. Resists downy mildew					55°F
	Cucumber, Slicing	Burpless 26	60	green	9 in.	Trellised this hybrid will grow straight with 12" long fruit but quality is best if picked at 8-10". Smooth, dark green fruit are very thin-skinned and tasty with no bitterness.					55°F

2017 Pork Plants Fruit Vegetable List

NEW	Crop	Variety	Days to Maturity	Mature Color	Fruit Size	Description	AAS	Burpee Exclusive	Other	Hot Scale	Min temp to plant
	Cucumber, Slicing	Diva	58	green	6-8 in.	Both non-bitter and delicious. Slender, 6-8" slightly tapered fruit have a very tender skin that is smooth, glossy and bright green. Resistant to Scab, tolerant of Powdery/Downy Mildew.	AAS				55°F
	Cucumber, Slicing	Gold Standard	49	green	6-8 in.	Delicious flavor plus 5 times the beta-carotene of other cucumbers! Plants grow up to 60" wide, bear lots of cucubers with golden flesh, great for eating fresh in salads.		Burpee Exclusive			55°F
	Eggplant	Burpee Hybrid	70	purple	8 in.	As easy to grow as peppers, thrive in hot weather. Excellent flavor with smooth flesh and small seeds that are very easy to remove.		Burpee Exclusive			55°F
	Eggplant	Fairy Tale	55	lavender	1 in.x4 in.	Clusters of 3-5 sweet, bitterfree, long and slender fruit up to 2 weeks earlier than others. 18-24" plants good for small spaces/containers.	AAS		Patio Pot		55°F
	Eggplant	Hansel	55	purple	1 in.x10 in.	Tender, non-bitter fingerlike clusters of fruits are dark, glossy purple and can be harvested from 2-10" long. Plants are compact.	AAS		Patio Pot		55°F
	Eggplant	Purple Blaze	55-60	lavender-white	4 in.	Unique neon purple with white steaks have tender white interior with excellent cooking flavor.		Burpee Exclusive			55°F
	Ground Cherry	Aunt Molly	65-70	golden yellow	.5-1 in.	Originated in Poland, sweet and fruity, turns golden orange and drops to ground when ripe. Makes tasty jam, mixed with apples in pies, or added to fruit salads & smoothies. Will store up to 3 months in the husk.			Heirloom		55°F
	Kale	SimplySalad Storm Mix		green		Four varieties of kale in assorted textures & colors, including purple, green and blue. Cool night temps bring out rich colors in the foliage.			Patio Pot		40°F
X	Kohlrabi	Konan	50	pale green	4-6"	Upright leaves resist insect damage meaning plant stays healthy all season long. Best part is sweet flavorful bulb that has excellent texture making it easy to slice and dice. It's time to try kohlrabi!	X				40°F
	Kohlrabi	Kossak	80	pale green	8 in.	Harvest when round and about 8" diameter, before it begins to elongate. Peeling of the woody "skin" is recommended, and interior will be sweet, delicious, and tender. Will keep in cold storage for several months.					40°F
	Kohlrabi	Quickstar	50	pale green	5.5 oz	Quick to mature and slow to bolt, harvest when bulbs are size of an apple, before they become hard and woody. Can also harvest at "baby" size.					40°F
	Lettuce, Looseleaf	Simply Salad City Garden Mix	14-21	mix		Traditional mix of red & green lettuce that everyone loves. Harvest mature outer leaves and leave smaller center leaves to continue to grow for future harvest.			Patio Pot		40°F
	Lettuce, Looseleaf	Simply Salda Alfresco Mix	14-21	mix		Colorful, nutritious mix of red & green lettuce w/ arugula, endive, radicchio gives true Mediterranean flavor & look. Harvest mature outer leaves and leave smaller center leaves to continue to grow for future harvest.					40°F
	Malus- Apple	Cortland	late Sept	red		An older, well-known variety. Medium-sized and bright red with a sprightly tropical flavor. White flesh holds its color well after being cut. Excellent for eating & cooking.					zone 4
	Malus- Apple	Haralson	early Oct	green/red		A natural semi-dwarf tree that produces medium-sized red fruit Hard crisp & tart. Good dual purpose apple. One of most popular apples in MN. Keeps well, will store until March.					zone 3
	Malus- Apple	KinderKrisp	late Aug	red	small	Exciting new applewith exceptional crispness of its parent Honeycrisp, with earlier ripening, slightly sweeter balance of flavor, and a smaller size, perfect for snacking and smaller appetites. Trees grow rapidly, fruit young, and hang crisp sweet fruit for an exceptionally long period of time.					zone 3
	Melon, Cantaloupe	Ambrosia	86	pale orange	6 in.	Exotic hybrid melon confused w/ cantaloupe, but flesh is very sweet and juicy. Best to grow on support or trellis, as you'll know when ready to eat because melon will slip off vine when ripe.					40°F
	Melon, Cantaloupe	Sugar Cube	81	pale orange	4 in.	Sweet, with best disease resistance of any melon!		Burpee Exclusive			55°F
	Onion	Red Zeppelin	110	dark red		Hybrid storage onion produces large dark red onions and stores up to an amazing 8 months. Also resists pink root and fusarium basal rot.					40°F
	Onion	White Sweet Spanish	110	white		Mild, sweet and tasty is best used when fresh and not stored for too long.					40°F
	Onion	Yellow		brown/yellow		Harvest young for fresh eating or let mature to full size for winter storage. Rich onion taste, stronger than white onions, and is fit for food dishes like French onion soup.					40°F
	Pepper, Hot	Anaheim	80	green/red		Mildly pungent roasting pepper. Long, slender green fruits ripen scarlet. Flavorful.				1.5	55°F
	Pepper, Hot	Biker Billy	66	green/red	3.5x2 in.	Named for Bill Hufnagle, this jalapeno is really packed with rich flavor & the hottest Jalepano around. Billy likes 'em best when they are flaming red and at their sweetest.				3	55°F
	Pepper, Hot	Caribbean Red	90	green/red		Macho' scarlet red habanero, twice as hot as the orange.				5	55°F
	Pepper, Hot	Habanero	95-100	green/orange		100 times hotter than jalapeno, yet with a delicious savory, smoky taste. Tapered green fruit ripen to a soft, pretty orange, 2" x 1".				4	55°F

2017 Pork Plants Fruit Vegetable List

NEW	Crop	Variety	Days to Maturity	Mature Color	Fruit Size	Description	AAS	Burpee Exclusive	Other	Hot Scale	Min temp to plant
	Pepper, Hot	Jalapeno (Early)	75	green/red	2.5x1.5 in.	Great choice for stuffing for "poppers" and making a party-worthy salsa. Use green or red.				2	55°F
	Pepper, Hot	Jalapeno La Bomba	56	dark green	2.5x1.5 in.	Sturdy, upright plants have dense canopy, deliver continuous yields of large, medium-hot peppers with thick walls.				2	55°F
	Pepper, Hot	NuMex Suave Orange	80	orange	2.25 in.	Distinctive fruity flavor & aroma of habanero with only hint of pungency. Fruit are slightly larger, plumper, more wrinkled, and ripen to bright yellow-orange. The tall, strong, upright plants have high yield potential.				1	55°F
X	Pepper, Hot	Sweet Thing	68	green-yellow-red	10-12"	Love the taste of peppers, but not the heat? Prolific plants produce loads of sweet, slightly smoky, cayenne-shaped.		X		1	55°F
	Pepper, Hot	Tiburón Ancho (Poblano)	65	green/red	5x1 in.	Called "ancho" when dried, "poblano" fresh. Mildly pungent, 4" long fruits ripen from dark green to red. Used in "Rellenos" stuffed with cheese.				1	55°F
	Pepper, Sweet	Better Belle F1	65	green/red	4.5 in.x3.5 in.	Early, tasty variety. Blocky, thick-walled, four lobed.					55°F
	Pepper, Sweet	Big Bertha	70-73	green/red	7 in.x4 in.	Thick-walled, 3 to 4-lobed, large fruit. Tobacco Mosaic resistant.					55°F
X	Pepper, Sweet	Candy Cane Red	40-60	red stripe	3.5-4"	First-of-its-kind striped snack pepper with variegated foliage is as attractive as it is tasty. Fruit starts green/white, matures to solid red. Thin walls & crispy texture make it perfect for fresh eating green or red.			Patio Pot		55°F
	Pepper, Sweet	Flavorburst	72	green/yellow	5x4 in.	Burpee taste test winner with most crisp, juicy and sweet flavor. Easy-to-grow, pepper produce bounty of 5 in. long golden fruit. Might need to stake plant.		Burpee Exclusive			55°F
	Pepper, Sweet	Orange Blaze	65-70	green/orange	3.5x1.5 in.	Gorgeous 2 to 3-lobed fruits boast very sweet flavor. Earlier to mature with excellent disease resistance.	AAS				55°F
	Pepper, Sweet	Revolution	72	green/red	4.75x4.5 in.	Produces good yield of 4-lobed, blocky, thick walled fruit in cool weather. Tolerant of many major diseases.					55°F
	Pepper, Sweet	Sweet Banana	65-70	yellow/red	4 in.	Sweet, crunchy pepper producing 4" curved banana like peppers with medium-thick walls. They're great for frying, grilling or eating raw.					55°F
	Pepper, Sweet-Spicy	Sweet Heat	35	green/red	3x1 in.	Extreme earliness gives sweetness of ripe fruit combined with just the right amount of spice. Smoky flavor is sweet and spicy making it perfect for grilling or salsa.			Patio Pot		55°F
	Potato	Kennebec		brown/white		Popular all-purpose potato with smooth skin and texture, white flesh, shallow eyes. Resists late blight. Heavy yields in midseason.					40°F
	Potato	Norland		red/yellow		Shallow-eyed, nicely rounded potatoes are crisp, delicious and easy to peel. Scab tolerant. Baked, boiled, mashed or fried, potatoes belong in everyone's pantry and garden!					40°F
	Potato	Yukon Gold	80-90	yellow		Favorite among gardeners and chefs. Delicious flesh is drier than other yellows, perfect for baking and mashing. Excellent yields and great keeper.					40°F
X	Prunus- Cherry	Dwarf Juliet	August	dark red		The sweetest, tastiest dwarf cherry yet. Large, meaty, deep-red cherries are favorite fresh, but delicious used for baking, jams and ice cream, and freeze beautifully. Growing just 5-to 8- ft. tall, yet still yields up to 25-lbs. Requires winter protection if grown in a container. Self-pollinating.					zone 3
	Prunus- Cherry	Evans Bali	August	dark red	15-20'	Much sweeter than other sour cherries. Deep, dark red fruit excellent for baking and actually sweet enough for fresh eating. Extremely hardy buds.					zone 3
	Prunus- Cherry	Sweet Cherry Pie	mid July	red	15'	New sour pie cherry has the sweetest tasting cherries, although not quite for fresh eating like a Bing, they are fantastic for jakes, jellies & pies.					zone 4
	Prunus- Peach	Contender	mid Summer	red	Freestone	Exceptionally cold-hardy variety, consistently yields large crops of sweet, juicy, medium to large freestone fruit. Also features lovely flowers that bloom in spring. Ripens in mid to late August. Self-pollinating.					40°F
	Pumpkin	Dill's Atlantic Giant	130	yellow/orange	400+ lbs.	Granddaddy of giant pumpkins, used for Fall fairs & competitions.					55°F
	Pumpkin	Harvest Moon	100	orange	10 lbs	Great for carving and decorating, give them plenty of room to grow. Pumpkins are 90% water, be sure soil is kept constantly moist.					55°F
	Raspberry	Anne Yellow	mid Aug	yellow		Sunshine yellow with a hint of apricot. Large, sweet, firm berries liven up tarts, jams and salads. Freezes well, too. Hardy and productive, it bears the first year. Ripens in August through frost.			Heirloom		40°F
	Raspberry	Brazelberries Shortcake	mid Summer	red	medium	Carefree, thornless raspberry plants are perfect for children harvesting healthful fruit right from your patio! You'll appreciate that there is no trellising or staking necessary. Zone 5 hardy, so containers will need to be brought into unheated garage or shed to survive the winter.					40°F
	Raspberry	Heritage	Late Summer	red		3-4' tall, medium sized red fruit has very good flavor. Cut back all canes to ground level in March for late summer crop.					40°F
	Rhubarb	Victoria	Mid Spring- Early Summer	green/red		Use the stalks only to make delicious tart pies and sauces. Produces heavy yields beginning 2nd growing season. Harvest Mid Spring-Early Summer.					40°F

2017 Pork Plants Fruit Vegetable List

NEW	Crop	Variety	Days to Maturity	Mature Color	Fruit Size	Description	AAS	Burpee Exclusive	Other	Hot Scale	Min temp to plant
